FUNDING PRINCIPLES

In order to receive funding from SAFAC, student organizations must be registered and in good standing with the Committee on Student Organizations (COSO). Organization membership and programs must be open to all University of Miami undergraduate students.

SAFAC’s role is to subsidize organizations’ expenditures. SAFAC is not responsible for fully funding the totality of student organizations’ operations. Student organizations are encouraged to seek outside sources of income (i.e. dues, sponsorship).

Submission of a budget does not guarantee that the items requested will be funded, even if the same items were funded in previous years.

SAFAC will not repay any items that were purchased prior to receiving funding approval. For Regular Budgets, organizations may begin purchasing requested items without approval no earlier than two weeks after the budget is submitted to the Department of Student Activities and Student Organizations. Requests purchased before or during this two-week window will be seen as repayments and will not be funded. Groups that purchase items prior to receiving approval from SAFAC do so at their own risk and may be required to reimburse the organization’s account from departmental or personal funds. For Early Budgets and Travel Budgets, requests must be fully approved before any funds are expended.

SAFAC only allocates funds for one fiscal year. A referendum is required for multi-year expenditures. Unused funds will be returned to SAFAC at the end of each fiscal year (May 31st).

It is the responsibility of organizations and treasurers to be familiar with these guidelines and to be aware of any caps that may impact organizations’ ability to request funding throughout the year.

Priority in SAFAC funding is given to student organizations that enhance student life, enrich the extracurricular experience, and/or improve the educational climate of the University. Funding shall be based on the merits of programs designed for and open to the entire university community.

SAFAC funding is only awarded to programs/funding requests that relate to the guiding principles of the student organization requesting the funds.

SAFAC funding will be based on the demonstrated necessity of expenditures (as determined by SAFAC) for the successful existence of the organization or completion of a program.

SAFAC reserves the right to add Guidelines throughout the academic year.

The Vice President for Student Affairs approves all funding decisions made by SAFAC.
FUNDING GUIDELINES

The following guidelines are most commonly used when making funding decisions for Regular Budget requests. SAFAC reserves the right to make exceptions when necessary and the right to deny funding when necessary. SAFAC will take the individual needs of each student organization and the merits of each individual program into consideration when making its decisions. Unless otherwise stated, all items require proof of documentation prior to being approved. Please see the SAFAC Documentation Policy for assistance determining the correct form of documentation.
