

SAFAC 2025-2026

FUNDING PRINCIPLES & GUIDELINES

FUNDING PRINCIPLES

In order to receive funding from SAFAC, student organizations must be registered and in good standing with the Committee on Student Organizations (COSO). Organization membership and programs must be open to all University of Miami undergraduate students, and funding may only be used for University of Miami undergraduate students who have paid the Student Activity Fee. Student organizations are held responsible for their accounts and are accountable for the funding they receive. Organizations must ensure they complete the budget request in the correct yearly budget template format, provide accurate information for both the supporting documentation and during the presentation, and the utilization of their funds. SAFAC will not be held accountable for mistakes made by an organization and any such oversight may result in the delay of the organization's budget being reviewed and approved by the committee.

SAFAC's goal is to remain equitable, annually consistent, and accessible. As such, while normally working within the operational framework delineated herein, SAFAC reserves the right to make exceptional funding decisions in the best interest of the student organization community to minimize potentially adverse future consequences.

Because SAFAC receives considerably more requests than it has funds to distribute, SAFAC's role is to subsidize organizations' expenditures. SAFAC is not responsible for fully funding the totality of student organizations' operations. Student organizations are encouraged to seek outside sources of income (i.e., dues, sponsorships).

Priority in SAFAC funding is given to student organizations that enhance student life, enrich the on-campus extracurricular experience, and/or improve the educational climate of the University. Funding shall be based on the merits of programs designed for and open to the entire university community.

Committee precedents and composition change from year to year. Submission of a budget does not guarantee that the items requested will be funded, even if the same items were funded in previous years.

SAFAC will not repay any items that were purchased prior to receiving funding approval. For Regular Budgets, organizations may begin purchasing requested items without approval no earlier than two weeks after the budget is signed by the Department of Student Activities and Student Organizations (SASO). Requests purchased before or during this two-week window will be seen as repayments and will not be funded. Groups that purchase items prior to receiving approval from SAFAC, after the two-week window, do so at their own risk and may be required to reimburse the organization's account from departmental or personal funds. For Early Budgets and Travel Budgets, requests must be fully approved before any funds are expended.

Any event using any item or items funded in part or in whole by SAFAC must be free and open to all University of Miami undergraduate students i.e., organizations may not charge University of Miami undergraduate students for admission to or for services at any event.

SAFAC only allocates funds for one fiscal year. A referendum is required for multi-year expenditures. Unused funds will be returned to SAFAC at the end of each fiscal year in May. SAFAC will communicate the deadline to organizations with sufficient notice.

It is the responsibility of organizations and treasurers to be familiar with these guidelines and to be aware of any caps that may impact organizations' ability to request funding throughout the year. Organization treasurers must complete the treasurer training form on SAFAC's Engage portal every year in order to be eligible to submit budgets.

Organization treasurers must meet with a SAFAC delegate during office hours to do a budget intake which involves reviewing the budget request and documentation and discussing why the requests are necessary for the success of the organization. The budgets are then sent via Adobe Sign for signatures to the SAFAC delegate, student organization president, treasurer, advisor, and the Department of Student Activities & Student Organizations (SASO), in that sequential order. Final budget submission is defined as having been signed by the Department of Student Activities and Student Organizations.

Alongside the treasurer who takes lead on the budget presentation, SAFAC allows the president and an additional executive board member for support. Presentations should be limited to 5 minutes. SAFAC delegates have the discretion to label a budget as "Fast-Track" during the initial intake if they believe the request is straightforward, meaning that the organization will not be required to present its budget to the SAFAC Committee. The "Fast-Track" designation does not signify that the budget will be expedited. Fast Track budgets are scheduled for the next available committee meeting.

SAFAC funding is only awarded to programs/funding requests that relate to the official guiding principles of the student organization requesting the funds. The guiding principles can be found in the organization's constitution approved by COSO and on the organization's Engage portal as well. In addition to guiding principles, SAFAC will also take into consideration information presented by

the student organization during the budget intake process and presentation when making funding decisions.

SAFAC funding will be based on the demonstrated necessity of expenditures (as determined by SAFAC) for the successful existence of the organization or completion of a program.

SAFAC reserves the right to add Guidelines throughout the academic year.

The Vice President for Student Affairs approves all funding decisions made by SAFAC.

SAFAC reserves the right to hold organizations accountable per their discretion. To be considered an organization in good standing with SAFAC, the Department of Student Activities and Student Organizations (SASO) policies, student organizations must adhere to all University of Miami policies and regulations, as well as meet the requirements established by COSO and SAFAC guidelines, the Student Organization Handbook, and the University of Miami Student Rights and Responsibilities. Any misuse or misrepresentation of the organization, including but not limited to if the organization spends more than what was approved and allocated for, misuses allocated funds, goes into account deficits- which would result in the organization repaying SAFAC for any debt incurred-, or are found to be responsible for unethical behavior associated with funding, may result in disciplinary action or risk of the organization being deactivated. Failure to adhere to SAFAC policies and procedures outlined in this document and on the website may result in lack of funding for your student organization.

FUNDING GUIDELINES

The following guidelines are used when making funding decisions for Regular Budget requests. SAFAC reserves the rights to make exceptions when necessary and the right to deny funding when necessary. SAFAC will take the individual needs of each student organization and the merits of each individual program into consideration when making its decisions. Additionally, SAFAC may deny outrageous requests if a similar, less expensive option is readily available.

Organizations are able to collaborate programmatically but are not allowed to pool SAFAC funds together to circumvent the category caps. Furthermore, organizations must disclose to SAFAC whether they plan to collaborate with another organization in their budget request and the event must align with both organization's funding principles. Organizations collaborating on the same event may not request funding for the same items. Such requests will be considered an attempt to pool funds and will not be approved for funding. Moreover, organizations are not allowed to request organization-specific items on behalf of other student organizations with whom they are collaborating with.

SAFAC will not fund anything that has already been paid for or where services were already rendered.

Unless otherwise stated, all items require proof of documentation prior to being approved. Please see the SAFAC Documentation Policy for assistance determining the correct form of documentation.

Student organizations must use funds in the manner in which they were allocated. SAFAC monitors student organization accounts and may require student organizations to submit documentation detailing their account transactions.

CAPITAL ITEMS

- Items funded by SAFAC that are determined to last more than three fiscal years will be designated as "capital items" by SAFAC in addition to being assigned a category.
- Capital items and alternatives deemed similar by SAFAC cannot be re-requested within three fiscal years after purchase.
- SAFAC will only fund capital items for organizations that have official on-campus storage space such as SCC space.

- SAFAC will not fund capital items for organizations that have no official storage space and rely on off-campus storage, or any form of personal storage not directly registered with the organization (e.g., dormitories, apartments, etc).
- SAFAC will consider funding a claimed capital (purchased within the past three years) at the discretion of the committee if the organization is unable to operate effectively without additional units of the capital item.
- It is an organization's responsibility to keep track and care of the capital items funded by SAFAC. Nonetheless, if an organization is uncertain about which capital items have been claimed in the past three years and are ineligible for funding, they are encouraged to reach out to SAFAC for clarification.

EVENTS

- Any event using any item or items funded in part or in whole by SAFAC must be free and open to all University of Miami undergraduate students i.e., organizations may not charge University of Miami undergraduate students for admission to or services at said events.
Student organizations may not make a profit from any event funded in part by SAFAC.
- SAFAC will fund up to 10 events per year, including activities, trips, conferences, and competitions. See Travel Guidelines for more details regarding events involving travel.
- Expenses put exclusively towards a single event will be counted as one event.
- The same expenses put towards additional events without any other, additional SAFAC funded expenses needed for those additional events will be seen as the same recurring event.
- If a recurring event later requires new and additional SAFAC funded expenses, the new items will be counted under an additional event.

TWO WEEK POLICY

- SAFAC Committee meetings occur weekly on Wednesday from 2:30 - 5:00 PM, and allocation decisions are subject to a multi-stage review process before any requested funds can be officially approved.
- SAFAC will not fund/approve any regular or travel requests occurring within two (2) weeks of full, and final budget submission; final budget submission is defined as having been signed by the Department of Student Activities and Student Organizations (SASO).
- Organizations are allowed to start making strictly necessary purchases, regardless of whether they have received their budget decision from SAFAC, exactly two (2) weeks after final budget submission. Reimbursement will, however, only be an option for approved expenses.
- SAFAC is not able to reimburse organizations for any unapproved expenses; unapproved expenses are defined as any and all items which were not reviewed by the SAFAC committee or were not approved by the SAFAC Committee upon review.

- Per University policy, all travel and expense reimbursements must be reconciled and submitted within 60 days of when expenses were incurred or paid. Failure to submit an expense report within 60 days will result in the expense not being reimbursed by the University.
- In the rare event that SAFAC is not able to review your budget within 2 weeks of full and final budget submission to SASO, it is possible your organization may need to make purchases without knowing what SAFAC has approved. It is strongly advised that, in the event of such delays, your organization reaches out to the SAFAC Chair at safac@miami.edu.

ACTIVE MEMBERS OF ORGANIZATIONS

- For requests based on a per-person rate, SAFAC will determine the appropriate number of "Active members" to fund.
